RAIN PREDICTION IN THE COUNTRY FROM SATURDAY TO WEDNESDAY
(13TH TO 17TH APRIL 2019)

According to Pakistan Meteorological Department (PMD), a shallow Westerly Wave is presently affecting upper and central parts of Pakistan. The present weather system is likely to intensify on Sunday (evening/night) and grip most parts of the country on Monday. Under the influence of that weather system, dust-thunderstorm/rain is expected at scattered places in Khyber Pakhtunkhwa, Northeastern Balochistan, upper Punjab, Islamabad, Gilgit-Baltistan and Kashmir on Saturday (13th April, 2019)

Pakistan Meteorological Department (PMD) has further predicted that widespread dust-thunderstorm/rain (with few moderate to isolated heavy falls) is expected in Khyber Pakhtunkhwa, Punjab, Islamabad, Gilgit-Baltistan & Kashmir from Monday to Wednesday (15th - 17th April, 2019). Widespread dust-thunderstorm/rain (with few moderate to isolated heavy falls) is also expected in Balochistan from Sunday evening to Tuesday. Dust-thunderstorm/rain is expected at scattered places in Sindh (Sukkur, Larkana, Shaheed Benazirbad, Hyderabad and Karachi Divisions) on Monday and Tuesday. Hailstorm is also expected at isolated places during the same period. The heavy rain-falls may generate flash flood flows in local nullahs/riverine in Makran, Quetta and Zhob Divisions in Balochistan and DG Khan Division in Punjab on Monday/Tuesday and may also trigger landslides in Malakand & Hazara Divisions, Gilgit Baltistan and Kashmir on Tuesday and Wednesday.

All concerned authorities are advised to watch the situation closely and take all necessary precautionary measures in order to avoid loss of human lives and damage to private & public properties.

Alamgir Khan
Member (Technical)
