

Government of Pakistan  
Ministry of Water Resources  
Office of Chief Engineering Advisor/  
Chairman, Federal Flood Commission

6-Attaturk Avenue, G-5/1, Islamabad  
Fax No. 051-9244621 & [www.ffc.gov.pk](http://www.ffc.gov.pk)

FFC's  
**DAILY WEATHER & FLOOD SITUATION REPORT**  
**THURSDAY, August 08, 2024**

At present, River Indus is flowing in **Medium Flood** in **Chashma-Taunsa reach** and in **Low Flood** in **Tarbela-Kalabagh & Guddu-Sukkur reaches**. Also Kabul River is experiencing **Low Flood** at both **Warsak and Nowshera**. Rest of the major Rivers (Jhelum, Chenab, Sutlej & Ravi) are discharging Normal flows at reporting time today i.e. 0600 hours. Inflows/ Outflows of major rivers at specified locations, besides country's major reservoirs storage position may be seen at **Annexure-I**. As of today, the major reservoirs (Tarbela, Chashma, and Mangla) are about **74.28%** filled, with **25.72%** of their capacity remaining to reach their Maximum Conservation Levels.

2. Heavy rainfall in the twin cities of Islamabad and Rawalpindi caused a significant rise in the water level of Lai Nullah. At Kattarian Bridge (1<sup>st</sup> Water Gauging Station), the gauge reading reached **22.7 feet at 7:40 AM**, surpassing the **Evacuation Level**. At Gawalmandi Bridge (2<sup>nd</sup> Water Gauging Station), it reached **19.5 feet at 8:10 AM**, hitting the **Alert Level**. The water level has now fully receded. The District Administration of Rawalpindi, along with WASA and Rescue 1122, is actively implementing precautionary measures to ensure public safety (**Source: PMD, Islamabad**).

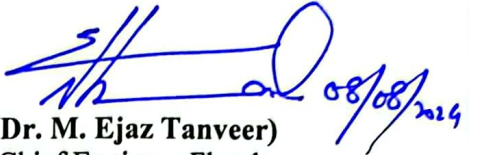

3. According to the FFD, Lahore, yesterday's upper air cyclonic circulation over Gangetic West Bengal (India) has moved Westwards and today lies over Central Jharkhand (India). It is likely to affect the Upper Catchments of Eastern Rivers from **10<sup>th</sup> August 2024**. Yesterday's Low pressure over Northwestern Rajasthan (India) and adjoining Pakistan has now become insignificant for Pakistan, however, an active Monsoon Trough extends from upper air circulation at Jharkhand (India) to Northeastern Punjab (India). Further, Westerly Wave trough that was previously over Kashmir has moved Eastward, while a new Westerly Wave trough is positioned over northwestern Iran and neighboring areas, and is anticipated to approach the region by August 10, 2024. Seasonal Low lies over Northeastern Balochistan and presently moderate moist currents from both the Arabian Sea and Bay of Bangel are penetrating into upper parts of Pakistan up to 5000 feet.

4. For the ensuring **24 hours**, FFD, Lahore has predicted scattered thunderstorm rain of **Moderate Intensity** with isolated **Heavy Falls** over **Islamabad, Punjab, Khyber Pakhtunkhwa and Balochistan (Zhob, Sibbi, Nasirabad and Kalat Divisions)** including upper catchments of all the major rivers of IRS. Details of prominent rainfall events experienced during the past 24 hours may be seen in **Annexure-II**.

5. For the period from **10<sup>th</sup> to 12<sup>th</sup> August 2024**, FFD, Lahore, has predicated **Scattered to Widespread** thunderstorm rain of **Heavy to Very Heavy Intensity** with isolated **Extremely Heavy Falls** over Punjab (**Gujranwala & Lahore Divisions**) including upper catchments of rivers Chenab, Ravi and Sutlej. For the same time span, scattered thunderstorm of **Moderate to Heavy Intensity** with isolated **Very Heavy Falls** may occur over **Islamabad, Punjab (Excluding Gujranwala & Lahore Divisions), Khyber Pakhtunkhwa and Balochistan (Zhob, Sibi, Nasirabad & Kalat Divisions)** including upper catchments of rivers Indus, Kabul and Jhelum. As a result, **Medium to High flows** are anticipated in river **Chenab** including Nullahs of rivers **Chenab and Ravi catchments** from **10<sup>th</sup> to 13<sup>th</sup> August 2024**. However, flows in river Sutlej will depend on water releases from India.

6. All relevant organizations are advised to remain on **Alert** and **Vigilant** and take immediate action in response to warnings issued by the authorities in order to ensure the safety of communities living in low-lying areas. Additionally, all pre-emptive measures be ensured to protect public and private properties, as well as irrigation and drainage networks and flood protection structures.

7. Pakistan Meteorological Department (PMD) through FFD, Lahore, being the Apex Flood Forecasting Agency at the National level, is monitoring the current weather situation on Round-the-Clock basis and keeping all informed as per its SOPs.

  
(Dr. M. Ejaz Tanveer)  
Chief Engineer Floods

For, Chairman, Federal Flood Commission

**Distribution:**

1. Chairman, Senate Standing Committee on Water Resources, Parliament House, Islamabad
2. Minister for Water Resources, Islamabad.
3. Minister for Planning, Development & Special Initiatives, Islamabad
4. Minister for Climate Change & Environmental Coordination, Islamabad.
5. Secretary to the Prime Minister, Prime Minister's Office, Islamabad
6. Secretary, Ministry of Water Resources, Islamabad.
7. Secretary, Planning, Development & Special Initiatives Division, Islamabad.
8. Secretary, Ministry of Climate Change & Environmental Coordination, Islamabad.
9. Secretary, Ministry of National Food Security & Research, Islamabad.
10. Director General (Coordination-III), President's Secretariat (Public), Aiwan-E-Sadr, Islamabad.
11. Secretary, Senate Standing Committee on Water Resources, Parliament House, Islamabad.
12. Chairman, National Disaster Management Authority, Islamabad.
13. Chairman, WAPDA, WAPDA House, Lahore.
14. Chief Executive Officer, Pakistan Railways, Lahore.
15. Chairman, Indus River System Authority, Islamabad.
16. Pakistan Commissioner for Indus Waters (PCIW), Islamabad.
17. Chairman, National Highway Authority, Islamabad.
18. Director General, Pakistan Meteorological Department, Islamabad.
19. Member (Water), WAPDA, WAPDA House, Lahore.
20. Member (Infrastructure), Planning Commission, Islamabad.
21. Chief Secretary, Government of the Punjab, Lahore.
22. Chief Secretary, Government of Sindh, Karachi.
23. Chief Secretary, Government of Khyber Pakhtunkhwa, Peshawar.
24. Chief Secretary, Government of Balochistan, Quetta.
25. Chief Secretary, Government of Gilgit-Baltistan, Gilgit.
26. Chief Secretary, Government of Azad Jammu & Kashmir, Muzaffarabad.
27. Secretary, Irrigation Department, Government of the Punjab, Lahore.
28. Secretary, Irrigation Department, Government of Sindh, Karachi
29. Secretary, Irrigation Department, Government of Khyber Pakhtunkhwa, Peshawar
30. Secretary, Irrigation Department, Government of Balochistan, Quetta.
31. Secretary, Irrigation and Water Management, Gilgit-Baltistan, Gilgit.
32. Secretary, Irrigation & Agriculture, Government of AJ&K, Muzaffarabad.
33. Chief Engineer (Merged Areas), Irrigation Department, Government of K.P, Peshawar.
34. Director General, Irrigation & Small Dams Organization, Govt. of AJ&K, Muzaffarabad.
35. General Manager, Tarbela Dam Project (TDP), WAPDA, Tarbela.
36. General Manager, Mangla Dam Organization (MDO), WAPDA, Mangla.
37. Director General, Provincial Disaster Management Authority, Government of the Punjab, Lahore.
38. Director General, Provincial Disaster Management Authority, Government of Sindh, Karachi.
39. Director General, Provincial Disaster Management Authority, Government of K.P, Peshawar.

**Distribution:**

40. Director General, Provincial Disaster Management Authority, Government of Balochistan, Quetta.
41. Director General, Gilgit Baltistan Disaster Management Authority, Gilgit.
42. Director General, State Disaster Management Authority, Govt. of AJ&K, Muzaffarabad.
43. Chief Commissioner, ICT, Islamabad.
44. Chairman, Capital Development Authority, Islamabad.
45. Commissioner, Rawalpindi.
46. Managing Director, WASA, Rawalpindi.
47. Principal Information Officer, Press Information Department, Islamabad.
48. Director (News), Associated Press of Pakistan, Islamabad.
49. Director (News), Pakistan Television, Islamabad.
50. Flood Cell, General Staff Branch, Engineers Directorate, GHQ, Rawalpindi.
51. Chief Executive Officer, National Disaster Risk Management Fund (NDRMF), Islamabad.

**C. Skardu Temperature:**

| Skardu Temperature | Last year 2023 | Today 2024 | Difference ( + / - ) |
|--------------------|----------------|------------|----------------------|
| Maximum            | 27.6 °C        | 32.4 °C    | + 4.8 °C             |
| Minimum            | 15.4 °C        | 14.5 °C    | - 0.9 °C             |

**NOTE-1: "Mild" Categories**

|               |   |
|---------------|---|
| Low Flood:    | River flowing within deep (winter) channel(s) but about to spill threatening only river islands/belas                   |
| Medium Flood: | River partly inundating river islands/belas   |
| High Flood:   | River almost fully submerging islands/belas and flowing upto high banks/bunds but without encroachment on the freeboard |

**NOTE-2: "Danger" Categories**

|                                 |  |
|---------------------------------|--|
| Very High Flood (VHF):          | River flowing between high banks/bunds with encroachment on the freeboard              |
| Exceptionally High Flood (EHF): | Imminent danger of overtopping/breaching, or the high bank areas have become inundated |

**NOTE-3: \* Flood Classification: (applied on downstream discharge/Outflow)**

\* (R) Signifies "Rising" Flood, (F) Signifies "Falling" Flood, (S) Signifies "Stable" Flow Condition &amp; NR stands for "Not Received"

\* Flood Classification for today is w.r.t. yesterday's Flood Classification at 0600 hours.

**NOTE-4:** Maximum Live Storage Capacity has increased from 13.321 MAF to 13.354 MAF due to de-silting of Chashma Barrage causing increase in its Live Storage Capacity from 0.278 MAF to 0.311 MAF.

**Government of Pakistan
